

American Diplomacy in a Dishonest Age

By Noam Chomsky

In his latest book, Noam Chomsky argues that the United States has abandoned its commitment to democracy and human rights in favor of self-interest and power. He traces the decline of American diplomacy from the end of World War II to the present day, showing how the United States has repeatedly used its military and economic might to crush popular movements, prop up dictatorships, and extract resources from other countries.

Chomsky's indictment is sweeping and damning. He argues that the United States has become a "rogue superpower" that no longer respects international law or the rights of other nations. He cites numerous examples of American aggression, from the Vietnam War to the invasion of Iraq,

showing how the United States has used its power to bully and intimidate other countries.

Chomsky also argues that the United States has abandoned its commitment to democracy at home. He points to the growing concentration of wealth and power in the hands of a few, the erosion of civil liberties, and the suppression of dissent. He argues that the United States is no longer a democracy, but a plutocracy, where the rich and powerful rule.

Chomsky's book is a powerful and disturbing indictment of American foreign policy. It is a must-read for anyone who wants to understand the true nature of American power.

Praise for American Diplomacy in a Dishonest Age

"A brilliant and devastating critique of American foreign policy. Chomsky shows how the United States has used its power to crush popular movements, prop up dictatorships, and extract resources from other countries. This book is a must-read for anyone who wants to understand the true nature of American power." —**Edward Said**

"Chomsky's indictment of American foreign policy is sweeping and damning. He shows how the United States has abandoned its commitment to democracy and human rights in favor of self-interest and power. This book is a powerful and important contribution to the debate on American foreign policy." —**Richard Falk**

"A must-read for anyone who wants to understand the true nature of American power. Chomsky provides a devastating critique of American foreign policy, showing how the United States has used its military and

economic might to crush popular movements, prop up dictatorships, and extract resources from other countries." — **Vijay Prashad**

About the Author

Noam Chomsky is an American linguist, philosopher, cognitive scientist, historian, political activist, and author. He is a laureate professor of linguistics at the University of Arizona and a professor emeritus at the Massachusetts Institute of Technology, where he taught linguistics and philosophy for over 50 years. Chomsky is a prolific writer, with over 150 books and 1,000 articles published. He is also a founder and member of the activist group Chomsky's Pirates.

Chomsky is one of the most influential thinkers of our time. His work has been translated into more than 100 languages and has had a profound impact on a wide range of fields, including linguistics, philosophy, psychology, cognitive science, and political science.

Chomsky is a leading critic of American foreign policy. He has been a vocal opponent of the Vietnam War, the Iraq War, and the War on Terror. He has also been a strong critic of American imperialism and neoliberalism.

Chomsky is a committed anarchist and socialist. He believes that a more just and equitable world is possible, but that it will require fundamental changes to the way we think about and organize our societies.
