In the tradition of Cheryl Strayed's *Wild* and Bill Bryson's *A Walk in the Woods*, *Ten Journeys on a Fragile Planet* is a memoir of love and loss, as a couple travels the world in search of adventure and meaning.

In 2016, the author and her husband sold their belongings and embarked on a ten-year journey around the world. They traveled to over fifty

countries, on six continents, and experienced some of the most amazing and challenging adventures of their lives.

Along the way, they learned about the fragility of the planet and the importance of protecting it. They also learned about the power of love and the importance of following your dreams.

*Ten Journeys on a Fragile Planet* is a beautifully written and inspiring memoir that will stay with you long after you finish it.
