Jones begins her memoir by recounting her own experiences with her mother. She describes her mother as a loving and devoted woman, but also as someone who was often critical and judgmental. Jones struggled for years to please her mother, but eventually came to realize that she could never live up to her expectations.

After her mother's death, Jones began to delve into the stories of other women who had also had difficult relationships with their mothers. She found that many of these women had similar experiences to her own. They had been criticized, controlled, and even abused by their mothers. But they

had also found ways to heal from their wounds and to build fulfilling lives for themselves.

Jones's memoir is a powerful and moving exploration of the complexities of mother-daughter relationships. It is a story of love, loss, and discovery. It is a story that will resonate with any woman who has ever struggled with her mother.
