Who Needs King Efrat Haddi? is a groundbreaking new book that challenges the traditional view of gender roles in society. Author Efrat Haddi, a transgender woman, shares her personal experiences and insights to argue that gender is not a binary construct, but rather a spectrum. This book is a must-read for anyone who wants to understand the complexities of gender identity and the importance of equality for all people.

Haddi begins her book by sharing her own experiences growing up as a transgender child. She describes the challenges she faced as she tried to fit into a world that did not understand her. She was bullied and harassed by her peers, and she was even forced to leave her home. But through it all, Haddi never gave up on herself. She knew that she was different, but she also knew that she was worthy of respect and dignity.

As an adult, Haddi has become a leading advocate for transgender rights. She has spoken out against discrimination and violence against transgender people, and she has worked to create a more inclusive society. In her book, Haddi argues that gender is not a binary construct. She says that there is no such thing as a "real" man or a "real" woman. Instead, she says that gender is a spectrum, and that everyone falls somewhere on that spectrum.

Haddi's book is a powerful and moving call for equality. She challenges us to rethink our assumptions about gender, and she encourages us to create a more inclusive world for everyone.
